Krishna Mitesh Gurung

Address: 1 Lines Terrace, Chatham, Kent, ME4 4NA
Mobile: 07394181515 | **Email:** mitesh_grg@hotmail.com

A self-taught developer, passionate about new emerging technology trends. Learning to be more creative and always researching for a better solution to the problem in a way to improve my coding skills. A foundation degree holder in software development wanting to explore, experience and willing to face many challenges in the IT Company.

#Skills

Front-End	Back-End	Source Control	Frameworks	UI/UX
HTML5	PHP/MySQL	GitHub	Bootstrap 4	Adobe Suite
CSS3 / SASS				UML
JavaScript / jQuery				

#Projects

Portfolio 1

March 2020 - Current: Personal Portfolio Website

› Developed personal portfolio using HTML5, CSS3 and BOOTSTRAP 4 framework for responsive design.

› Checking the validity and quality of Web documents by using the mark-up validation service 'W3C validator'.

› Clickable portfolio images to link to my GitHub repository and websites.

› Making sure that the web contents are well presented across all the devices, thus checking for cross browser compatibility issues and fixing it.

Portfolio 2

August 2020 – current: Client Personal Website

› Optimization of web pages by writing good semantic HTML.

› Use of CSS media queries, flex box and CSS grid layout for responsive design and user experience.

› Created interactive image slideshow using client-side scripting language such as jQuery.

› Mobile-first approach, by using Bootstrap 4 for developing navigation bar and other webpage layouts.

Portfolio 3

August 2020 – current: Interactive Input Form

› Learned to write a function, pass arguments correctly and to call a function.

› Able to practice with JavaScript data types such as; string, numbers, Boolean values.

› Use of conditional statements. Learned to use if and else statements to specify a block of code to be executed, when a specified condition is either true or false.

› Use of JavaScript syntax and built-in methods, thus enabling to make changes to the DOM elements.

#Education

September 2012 – 2014	Foundation Degree in Computing & Systems Development
Havering College	*Merit in* **(Software Development)**
